INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/KR2004/000821

Box N	o. I Basis of the report
ı	Vith regard to the language, this report is based on the international application in the language in which it was filed, unless therwise indicated under this item. This report is based on translations from the original language into the following language
1	international search (under Rules 12.3 and 23.1(b))
i .	publication of the international application (under Rule 12.4)
	international preliminary examination (under Rules 55.2 and/or 55.3)
	th regard to the element s of the international application, this report is based on (replacement sheets which have been furnished the receiving Office in response to an invitation under Article 14 are referred to in this reort as "originally filed" and are not nexed to this report): The international application as originally filed/furnished
	the description:
	pagesas originally filed/furnished
	received by this Authority on
	pages* received by this Authority on
:. [the claims:
	pagesas originally filed/furnished
-	pages as amended (together with any statment) under Article 19
. •	received by this Authority on
	pages* received by this Authority on
	the drawings:
	pagesas originally filed/furnished
	received by this Authority on
	pages*received by this Authority on
3	the sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing. The amendments have resulted in the cancellation of: the description, pages the claims, Nos. the drawings, sheets the sequence listing (specify): any table(s) related to sequence listing (specify): This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
	the description, pages the claims, Nos
	the drawings, sheets
	the sequence listing (specific):
	the sequence listing (specify): any table(s) related to sequence listing (specify):
* If iten	n 4 applies, some or all of those sheets may be marked "superseded."
	"Superseaea."

International application No.

PCT/KR2004/000821

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1.	Statement			
	Novelty (N)	Claims	1-22	YES
		Claims	None	NO
ŀ	Inventive step (IS)	Claims	None	YES
		Claims	1-22	NO
	Industrial applicability (IA)	Claims	1-22	YES
1		Claims	None	NO NO

2. Citations and explanations (Rule 70.7)

Reference is made to the followings documents:

D1: KR 2003-027425A (LG Electronics Co.) 07 APRIL 2003

D2: Jong-Hyun Lim and Hae-Wook Choi, "Adaptive motion estimation algorithm using spatial and temporal correlation", 2001 IEEE Pacific Rim Conference on Communications, Computers and signal Processing, Volume 2, pp. 473-476, 26-28 Aug. 2001.

Claims 1-22 meet the criteria set out in PCT Article 32(2), because the subject-matter is novel over the documents D1-D2.

The document D1 discloses an adaptive decision method for motion vector search range, comprising a step for deciding sets of maximum motion vectors of adjacent blocks, a step for deciding a set of maximum motion vectors of the current block among the above motion vectors, a step for deciding maximum area of motion vectors, and a step for deciding a final area of motion vectors. D2 discloses an adaptive motion estimation algorithm using spatial and temporal correlation, characterized by selecting adaptive search window per macroblock using 3 spatial macroblocks and one temporal macroblock.

It appears obvious for a person skilled in the art to use D1-D2 to arrive at Claims 1-22, which include a method and an apparatus for deciding a search range for motion vector prediction, thus the inventive step of the subject-matter claimed cannot be acknowledged, thereby Claims 1-22 cannot meet the criteria set out in PCT Article 32(3) under the documents D1-D2.

Claims 1-22 meet the criteria of PCT Article 33(4), because the invention can be used to a method and an apparatus for determining motion vector search range in video encoder.

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/KR2004/000821

Box No. VI Certain documents cit	ed
----------------------------------	----

1. Certain published documents (Rule 70.10)

Application No.
Patent No.

Publication date (day/month/year)

Filing date (day/month/year)

Priority date (valid claim) (day/month/year)

US 2003/0142749 A1

31/07/2003

24/12/2002

26/01/2002

Document US 2003/0142749 A1 filed on 24/12/2002, published on 31/07/2003 with a claimed priority date of 26/01/2002 (validity not checked) does not constitute prior art within the meaning of Rule 64.1(b) PCT, but appears to disclose most of features of Claims 1-22.

Non-written disclosures (Pute 70 0)

Kind of non-written disclosure

Date of non-written disclosure (day/month/year)

Date of written disclosure referring to non-written disclosure (day/month/year)
